Dear Alok,

On behalf of The Leukemia & Lymphoma Society (LLS) and the patients we serve, thank you for your thoughtful gift of \$50.00 made on 02/12/2018 to support Team CUREblood and our Students of the Year campaign. We are on the threshold of amazing research breakthroughs. Your money accelerates miraculous new treatments and healing therapies once thought impossible.

To date, we have invested more than \$1 billion in research to advance therapies and save lives. LLS research grants have funded many of today's most promising advances, including targeted therapies and immunotherapies and some of the therapies first approved for blood cancer patients are now helping patients with other types of cancers and other serious diseases.

Thanks to research and access to better treatments, survival rates for many blood cancer patients have doubled, tripled and even quadrupled since 1960

You are changing the lives of local patients and families. **Cures today. Not someday.** That's the goal. And you are at the heart of it.

Thank you for your support. If you have any questions, or would like more information about our work, please don't hesitate to reach out to me at pooja.trivedi@lls.org.

Sincerely,

A handwritten signature in cursive script that reads "Pooja Klebig".
